

Salma El Gohary

Top 3% Schulich Leader Scholar | 647-768-4471 | salma.elgohary@uwaterloo.ca | in/salmaelgohary/ | salmaelgohary.com

Experience

Research Assistant

University of Waterloo (SHARE Lab) | Jan 2026 – Present

- Researching how individual AI tool use affects team-level collaboration dynamics to inform the design of team-level AI tools
- Designed a **7-component mixed-methods study protocol** with surveys, diary studies, and interviews, spanning **160+ participants** across **10+ workplace teams**

Product Design Intern

AMD | May 2026 – Aug 2026

- Owned the end-to-end redesign of AMD's Install Manager (**10M+ users**), reimagining the interface and interaction flow around user research insights, **increasing beginner installs by 30%**
- Built specialized agentic AI workflows using Claude Code and Cursor to accelerate the product design process from concept to handoff, **reducing timelines by 50%**
- Led recurring design reviews with product managers and engineers to align on technical feasibility and backend complexity early in the process, reducing rework cycles later in development

Product Designer

CorLibra | Aug 2025 – Jul 2026

- Led the visual and interaction redesign of a **Health Canada Class II SaMD** interface, translating insights from elderly-patient interviews into a simplified, accessible UI that **increased reported usability by 55%**
- Performed a full **WCAG 2.0 AA accessibility audit**, embedding safety and inclusive-design considerations into a clinically regulated product
- Designed a supervised **2-week usability study with 5 patients** under Hamilton Health Sciences to validate workflow efficiency and alignment with clinical needs

Product Design Intern (AI)

Trax Codes | Oct 2025 – Dec 2025

- Designed and prototyped a minimal interface for an agentic AI system navigating **80+ digitized Canadian building codes**, reducing cognitive load for expert users
- Conducted heuristic evaluations and user research to uncover trust gaps in AI-generated compliance responses, translating findings into UX specifications that **reduced response validation times by 33%**
- Redesigned search flows based on user feedback to strengthen confidence in AI-generated compliance content, **increasing standard-to-premium conversions by 48%**

UX Design Intern

wonderMakr Ltd. | Jan 2025 – Apr 2025

- Designed the UI and information architecture for a client-facing onboarding platform for wonderMakr's specialty vending machine projects, translating user interviews into a streamlined experience that **reduced project lead time by 25%**
- Facilitated discovery and ideation sessions and presented synthesized insights to clients, converting high-level briefs into a clear design strategy

Community

Product Designer

UW Blueprint | Sep 2026 – Present

- Designing and building tech for social good

Product Designer

Develop for Good | Oct 2025 – Feb 2026

- Designed a ride-in-progress experience for maternal transportation, informed by user research to improve comfort, safety, and trust for a vulnerable user group
- Led usability testing sessions on **UserTesting** with **10+ participants**, analyzing session replays through qualitative and quantitative analysis to inform usability insights

Chapter President

STEM Fellowship | Mar 2023 – Jun 2024

- Founded Stephen Lewis Secondary School's first STEM Fellowship chapter, **scaling to 100+ members** in its first year through intentional and user-informed event design
- Designed and led a Girls in STEM flagship event, coordinating a team of **50+**, with demand exceeding projections by **140%**

Skills & Tools

Design

Prototyping · Interaction Design · UX Research · Visual Design · Information Architecture · Journey Mapping · Accessible Design · Systems Thinking

Research

Usability Testing · User Interviews · Competitor Analysis · User Surveys · A/B Testing · Heuristic Evaluation

AI Tools

Claude · Cursor · Figma Make · Midjourney · Suno · ElevenLabs · tl;dv

Tools

Figma · Adobe Design Suite (Illustrator, Photoshop) · UserTesting · JIRA · Confluence · JAMA · Git · VS Code

Software

React.js · JavaScript · Python · Framer · HTML · CSS · C++

Education

Systems Design Engineering (BASc)

University of Waterloo | Expected Apr 2029

- 4.0 GPA, Dean's Honours List
- Coursework in HCI, systems thinking, and software development

Awards

Schulich Leader Scholar (\$120,000)

Telesat Women in STEM Scholar (\$5,000)

President's Research Award (\$1,500)
